

PRODUCT INTRODUCTION

Eidolon Profile 350C PRO is an innovative water-proof lighting fixture with precise framing system, rich in multi-in-one color light type, uniform light mixing. The color is changeable. Color temperature is 2700k-8000k precise adjustable. It is equipped with high quality optical system, uniform spot and sharp imaging. With manual zoom, the focusing system is 20 ° to 40 ° and the angle positioning is accurate. The flexible and integrated framing system, cuts the light to frame some shapes to achieve the precise carving of the illuminated object. The framing belt is jammed, which can keep the framing shape unchanged for a long time. The dramatic dimming effect meets the strict demand of professional lighting. It contains rotating pattern disk, which can project abundant LOGO (The LOGO can be customized). Waterproof rate is IP65. This product is designed for corrugated building, plaque, sculpture, live performance, cultural and tourism market, theme park and other places
